

Workplace Resolution.

This meeting of [*union members/public servants*] recognises that:

- Victoria works because public servants do.
- Public service job cuts won't repair the budget, but will hurt all Victorians.

This meeting of [*members/public servants*] commits to working together to:

- Talk with fellow co-workers about our campaign
- Talk with our friends, family members and community members about the campaign.

We call on the Victorian Government to respect the essential work of the Victorian public sector and support us by investing in public servants who help make Victoria work.

We will continue to campaign until we win.

Victoria Works  *because we do.*
